Why use Algae extreme?

It is a no nonsense product specifically designed to kill stubborn algae. It is excellent for a wide range of algae, including biofilms and heavy infestations.

How does it work?

It interrupts the biological processes of algae and the algae dies.

Directions:

Backwash sand filter.

Adjust pH to between 6,8 and 7,4.

Run pump on normal "filter" cycle. Set it to run on 24 hour cycle.

Dissolve the contents in 20 litres of water and spread around the pool.

Avoid generating excessive foam.

Quick tips:

Switch off fountains and sprays to minimise foam.

Chlorinators - Can stay on if sufficient salt in pool.

Very heavy algae infestation? Flocculate first and vacuum settled algae to waste, then use a satchet of Aqua Magic as well.

This product is highly concentrated, use half the dosage if algae is not extreme.

How much to use:

Use 1 litre to treat up to 60 000 litres

Use half a litre to treat up to 30 000litres

Use quarter litre for tiny pools

Warnings:

Harmful if swallowed. Handle with care. Store away from food. Keep out of reach of children. Avoid contact with eyes and skin. Keep away from other chemicals.

First aid:

If swallowed drink large amounts of milk or water and seek medical advice, showing this package. Eye contact - rinse immediately with lots of water and seek medical advice, showing this package. Mouth contact - rinse with water. Skin contact - rinse with water.
