

Why use Aqua Magic?

It is a multifunctional pool water treatment designed to give you peace of mind and a distinctively blue, hassle free pool. Saves the need for many other chemicals and stabilisers. Keeps pool care simple and economical. Safe for pets, birds and bees to drink pool water.

How does it work?

The cupric sulfate kills the algae.
The percarbonates and perborates oxidise organic matter in the filter.
Flocculants help clear the water and remove phosphates.
Crushed lava stone (Filtral flow) helps remove oils.

Directions:

Backwash sand filter.
Adjust pH to between 6.8 and 7.4.
Adjust total alkalinity to above 60ppm.
Run pump on normal "filter" cycle.
Pour contents into weir so they get sucked into the filter.
Once a week - add a sachet of OXY Power for bacteria control, or 1 cup chlorine.

Quick tips:

If you have a cartridge filter, pre-dissolve and pour into pool.
Chlorinators - just switch chlorinator off for 1 day after adding Aqua Magic.
No test kit? Call helpdesk if product doesn't make your pool blue.

How much to use:

When the water is in a fair condition - use one pack for up to 60 000 litres water for 4-6 weeks. Use 1/2 for small pools and 1/4 for tiny pools.
When the water is green and in bad condition - Double the dosage.

Warnings:

Harmful if swallowed. Handle with care. Store away from food. Keep out of reach of children. Avoid contact with eyes and skin. Keep away from other chemicals.

First aid:

If swallowed drink large amounts of milk or water and seek medical advice, showing this package. Eye contact - rinse immediately with lots of water and seek medical advice, showing this package. Mouth contact - rinse with water. Skin contact - rinse with water.
