

## What can you expect?

Expect to start seeing results within 10 minutes.

Stains should start disappearing within minutes, especially on the steps.

Water quality starts improving immediately and ordinary pool chemicals work better again.

## Why use Pool Re-Nu?

It acts quickly to remove a wide range of stains in pools and you can see it work within minutes.

It removes impurities from the pool water and allows chemicals to work well again.

Pool Re-Nu is so easy to use and is a wide range all in one water rejuvenator.

You will save money and unnecessary chemical costs with seasonal use of Pool Re-Nu.

## How does it work?

The released chelating agents bond to problematic metals and reverse stains.

These combined ingredients effectively prevent stains too.

Sequestering agents act on certain impurities that cause poor quality water.

Flocculants help clear the water and remove phosphates (an essential algae food)

An automatic pH lowering effect helps dislodge stubborn stain causing by-products.

## Directions:

Backwash sand filter then set the pump to run on its normal filter cycle.

Carefully pour contents directly into the pool, spreading around the sides.

You can let the pump run overnight for maximum results.

**NOTE:** Badly stained marbelite pools -

The walls of marbelite pools often become microscopically pitted and rough. Staining by-products get right into these deep pores and the removal of these stains is very difficult. In this case rather contact one of our "Help" facilities shown below

## Quick tips:

If there are still stains in the pool after 48 hours, you will need a second Pool Re-Nu.

If there is no sign of improvement in 1 hour, contact us.

You might find flat "clouds" of dirt at the bottom of the pool after the pump has been off for some hours. This is the flocculating effect. You can leave it for the pool cleaner to get rid of it over a few days or you can manually vacuum it out.

In the old days you would need to empty the pool and have it acid washed - that cost a lot of money and aged the pool lining tremendously. Now - just use Pool Re-Nu.

## Warnings:

Harmful if swallowed. Handle with care. Store away from food. Keep out of reach of children. Avoid contact with eyes and skin. Keep away from other chemicals.

## First aid:

If swallowed drink large amounts of milk or water and seek medical advice, showing this package. Eye contact - rinse immediately with lots of water and seek medical advice, showing this package. Mouth contact - rinse with water. Skin contact - rinse with water.
